- H. Anticipated award is at the **November 10, 2025** Commission meeting. Final completion of this project shall be no later than **December 31, 2025**.

III. General

References

All materials, equipment and traffic control measures shall conform to the current Michigan Department of Transportation (MDOT) “Standard Specifications for Construction” and MDOT “Manual of Uniform Traffic Control Devices” as well as the latest edition of the “American Society of Testing Materials” (ASTM).

All material and installation shall meet the current requirements of EGLE including the final permit document that is currently being processed.

Scope

Install 8” SDR 35 sanitary sewer main from 108’ north of the manhole in Millard St and go to the north ROW line of the new homes a distance of 225’. Also includes manhole to be placed at the north end termination point. Four (4) 6-inch service laterals will also be installed on new pipe, with two connections to homes and two stubs at ROW. Home connections include 1111 and 1118 Millard Ct. The two vacant lots are across from 1111 and north of 1111 Millard Ct.

The pipe at the manhole in Millard is approximately 11.5’ below surface grade. Assume the current portion of pipe was installed at 0.40% slope and the new pipe will also be installed at the same minimum slope.

Measurement and Payment

This is a unit price project based on the bid tabulation items listed on the bid form.

Traffic Control

The Contractor shall provide traffic control as necessary to safely complete the work and minimize traffic interruption. Traffic control shall meet the requirements of the City of Three Rivers.

Timing Limitations

The **December 31, 2025**, completion date shall be met or exceeded (completed before that date).
