Specifications for Entryways and Pillars

General

The Three Rivers Public library anticipates a spring or summer project to pour new entryways and reinforce the bases of our pillars. This is a request for the purchase and installation of new entryways and pillar reinforcements at the Three Rivers Public Library.

It is the intent of these specifications to describe the outdoor entryway and pillar needs for our library location.

The below listed specifications and instructions are in no way intended to eliminate any company, vendor, bidder or product from the bid process. It is the sole intent of these specifications and instructions to describe the project that will be the best available fit for the City of Three Rivers and its residents.

Electronic Sign Specifications

Front Entryway Description
Tear out 14' x 13' front entrance. Pour back 4" thick with wire reinforcing and pinned together on all 4 sides with ½" rebar dowels. This is just the section from the sidewalk to the door, parts of the patio will remain intact.
Back Entryway Description
Tear out concrete at back entrance, leaving the concrete benches and lockers, and a small perimeter as needed around them. Remove concrete from back entrance to newer sidewalk around the benches. Pour new concrete with wire reinforcing and broom finish. Outer area of project is 30' 7" x 11'.
Pillar Reinforcement Description
There are 4 pillars in the back of the building. All of the pillars are showing wear at the bases and are in need of reinforcement. The pillar bases measure: 2' x 2' and are 4 ½" tall.
